

Anas Alweisy

Electrical Engineer

Fresh graduate with a degree in Electrical Engineering with a strong foundation in Power Distribution System and Power Generation Plants ,PV systems etc.

EDUCATION

Bachelor Degree in Electrical Power and Machines Engineering

Yarmouk University

09/2013 – 06/2018

3.1 - Very Good

Courses

- Transformers & DC Machine
- AC Machines
- Power System Analysis
- Power System Protection
- Electric Drive System
- Power system Design
- Power System Distribution
- High Voltage Engineering

GRADUATION PROJECT

Dual axis solar tracking system using arduino

- Design a prototype of solar tracking system in order to increase PV system efficiency by 20-40 %.

UNIVERSITY TRAINING

The Unity of Engineering Projects in Jordan University of Science and Technology.

Distribution Substation.

09/2017 – 10/2017

Achievements/Tasks

- knowledge in types of circuit breaker, testing and operation.
- knowledge in components of switch-gear and their operation.
- knowledge in types of transformers and how protect to it.

Master for Energy System Company PV systems design & installation

11/2017 – 12/2017

Achievements/Tasks

- Mosque of Eidoun project 18 KW

Samra Electric Power Company (SEPCO).

Electric Power Generation

02/2018 – 03/2018

PERSONAL SKILLS

Quick Learner

Responsible and sincere

Hard working

Excellent communication

Interpersonal skills

Teamwork

Strong mathematical skills

TECHINCAL SKILLS

Microsoft office

PVsys

Sketchup

ETAP

Dialux

Arduino

ORGANIZATIONS

LOYAC Jordan

I participated in the Darb program (1 + 2) and gained many skills

IEEE (04/2017 – 12/2017)

Student Member

CERTIFICATES

GIEE Certified Photovoltaic System Professional Program (CPSP) (02/2018 – 03/2018)

The Global Institute of Electrical Engineering - GIEE / Jordan

English Language - Level 4 (06/2017)

Talal Abu-Ghazaleh Knowledge Society

Reading Electrical Plans And Electrical Installation (02/2017)

Jordan Engineers Association

LANGUAGES

Arabic

English
